Dear Mr. Williams:

It is my pleasure to inform you that the New World Instruments Pocket Detective 2.1 Window Tint Tester has been approved for use in the North Carolina Window Tinting Program. You may begin sales immediately.

As you are aware, there will be meetings with inspection stations across the State where your company will be offered a chance to demonstrate and sell the unit. These classes will be scheduled sometime in February. LT. Cross of the Enforcement Section will be contacting you to provide additional information on the exact dates and times. If you have any questions, feel free to contact him at (919) 733-7872.

Good luck with the sales and marketing of your equipment.

Sincerely,

Alexander Killens
Commissioner
